TERMS OF ACCEPTANCE

When a patient seeks Chiropractic health care and we accept a patient for such care it is essential for both to be working towards the same objective.

Chiropractic has only one goal, to locate and correct Vertebral Subluxation. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

HEALTH: A state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity.

VETEBRAL SUBLUXATION: A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference with the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

ADJUSTMENT: Is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our Chiropractic Method of correction is by specific adjustments to the spine.

We do not offer to diagnose or treat any disease or condition other than the vertebral subluxation. However, if during the course of a chiropractic spinal examination we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis and treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area. Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. **OUR ONLY PRACTICE OBJECTIVE** is to eliminate a major interference to the transmission of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations.

I hereby request and consent to the performance of chiropractic adjustments and other chiropractic procedures, including various modes of physical therapy and diagnostic x-rays, if necessary, on me (or on the patient named below, for whom I am legally responsible) by the doctor of chiropractic named above.

Though chiropractic adjustments and treatments are beneficial and seldom cause any problem, I understand and am informed that there are some risks to treatment.

I understand that chiropractic is not an exact science and that, therefore, reputable practitioners cannot fully guarantee results, I acknowledge that no guarantee or assurance has been made by anyone regarding the chiropractic treatment that I have requested and authorized. I have had the opportunity to read this form and ask questions. My questions have been answered to my satisfaction. I consent to the proposed treatment.
